The Journal of Systems and Software

Contents Volume 41

Contents

Editor's Corner
"Who Cares?" Technologies in practice
Robert L. Glass 1

Software engineering practices in Singapore
Danny C.C. Poo and Mui Ken Chung 3

Investments in reusable software. A study of software reuse investment success factors
David C. Rine and Robert M. Sonnemann 17

Analyzing existing software for software reuse
Gregory W. Hislop 33

The use of immense memories for database systems: A pragmatic approach
Forouzan Golshani and Antonio Pizzarello 41

A simulation model for the primary copy strategy in distributed INGRES
Yin-Fu Huang, Chien-Chie Mao and Jyh-Her Chen 51

Satisfying timing constraints of real-time databases
S.V. Vrbsky and Saa Tomić 63

Editor's Corner
Software Runaways – Some surprising findings
Robert L. Glass 75

Software design guidelines for event-driven programming
George C. Philip 79

Dynamic navigation in multiple view software specifications and designs
Elizabeth O'Hara-Schettino and Hassan Gomaa 93

Promoting business policies in object-oriented methods
Oscar Diaz, Jon Iturrioz and Mario G. Piattini 105

An object-oriented implementation of an entity relationship model
Hock Chuan Chan, Danny C.C. Poo and Cheng Peng Woon 117

Software reuse using C++ classes
Mark Lattanzi and Sallie Henry 127

Estimation of effort and complexity: An object-oriented case study
Vojislav B. Mišić and Dejan N. Tešić 133

Editor's Corner
A word of warning about reuse
Robert L. Glass 145

A toolset to support the construction and animation of formal specifications
Ian Morrey, Jawed Siddiqi, Richard Hibberd and Graham Buckberry 147

A practical language and toolkit for high-integrity tools
I. Toyn, D.M. Cattrall, J.A. McDermid and J.L. Jacob 161

A task migration algorithm for heterogeneous distributed computing systems
Matthew P. Tiemeyer and Johnny S.K. Wong 175

Task routing and resequencing in a multiprocessor system
H.D. Karatza 189

History, principles and application of the SPRINT method
L.M.G. Feijs and H.B.M. Jonkers 199

Contents volume 41 221
